CommuniFire keeps a history of edits to all content within the platform. Each time you edit content, a new version will be created. You can view the version history and compare versions.

To see the history, click on the gear icon then Version History.

-

Here you will see the list of all of the different versions. To compare the versions, check the two versions you'd like to compare.

Click Compare checked versions.

Now you are in compare mode. The green highlighted text is new text that has been added. Red highlighted text has been removed.
