

Connections

Version 30

Published 3/1/2017 01:17 AM by [Anonymous User](#) Last updated 2/14/2024 07:53 PM by [Vladana Garic](#)

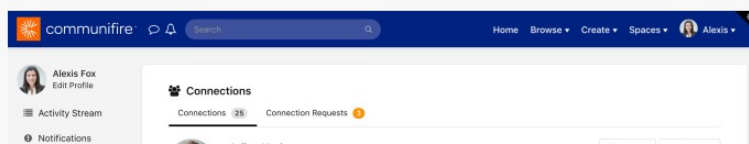

Connect with colleagues, share activity, and increase productivity. Connections help you keep up-to-date with other people. Connections encourage collaboration and strengthen bonds and relationships in your organization.

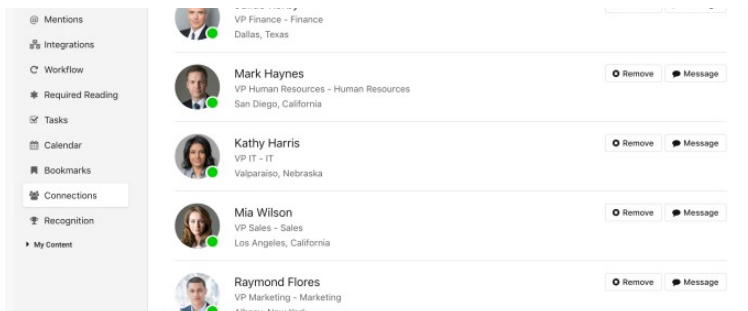

Below are the benefits of connecting with your colleagues.

- *What's on your mind?* posts in [My Activity Stream](#) are shared between connections.
- Connections can post on each other's walls.
- Your connections' activities in public spaces will appear in your [My Activity Stream](#).
- Your activities in public spaces will appear in your connections' [My Activity Stream](#).
- You can [Share Calendar](#) with all your connections at once.
- Connections can only message each other if "Chat with Only Connections" is set in [Application Settings](#) > Enable chat.

In My Connections, you can view and edit your connections and accept or ignore connection requests.

[People List Template](#)

The people list template is used on the Connections and Direct Reports pages. You can customize which profile fields appear on the Connections page.

[How to Post on a User's Wall](#)

You can post to another user's Activity Stream if they're connected to you. They'll receive a notification about the wall post. Post on someone's wall to ask a question, start a conversation, or follow up on something.
