

Manage Space: Delete Workflow

Version 12

Published 3/8/2017 06:52 PM by [Anonymous User](#) Last updated 6/18/2021 11:40 PM by [Grace Kamau](#)

Delete workflow in a space to remove a certain moderation flow from the space.

Note: To delete workflow, you must first activate a different workflow for that content type. The status of the workflow you want to delete must be Pending. To disable workflow, go to [Manage Space: Turn Workflow On or Off](#) instead.

To delete workflow:

1. From the space, click **Manage Space > Workflow > Workflow Definitions**.
2. For the workflow, click the delete icon.
3. Click **OK**.
