Using the Browse menu, you can quickly navigate to content in the top level community as well as view people, recognition, and spaces.

The screenshot shows the Communifire interface. At the top left is the Communifire logo and a search bar. The top right navigation bar includes 'Home', 'Browse' (with a dropdown arrow), 'Create', 'Spaces', and a user profile for 'Alexis'. The 'Browse' dropdown menu is open, listing the following categories: Articles, Blogs, Calendar, Cases, Discussions, Files, Ideas, People, Photos, Recognition, Surveys, Spaces, Videos, and Wiki. The main content area features a large blue header with the text 'Welcome to your new int...' and a search bar. Below this is a 'Quick Navigation' section with buttons for 'Employee Handbook' and 'Discussions'. Further down, there are three article cards, each with a 'HUMAN RESOURCES' tag. The first card is titled 'How to Get Coworkers to Read Your Emails', the second is 'How to Get Your Employees to Use Technology', and the third is partially visible as 'ons to Celebrate at'. At the bottom left, there are links for 'Browse People', 'Organizational Chart', 'Browse Recognition', and 'Browse Spaces'. Below these links, it says 'tags : member'.
