

Embed Google Drive

Version 10

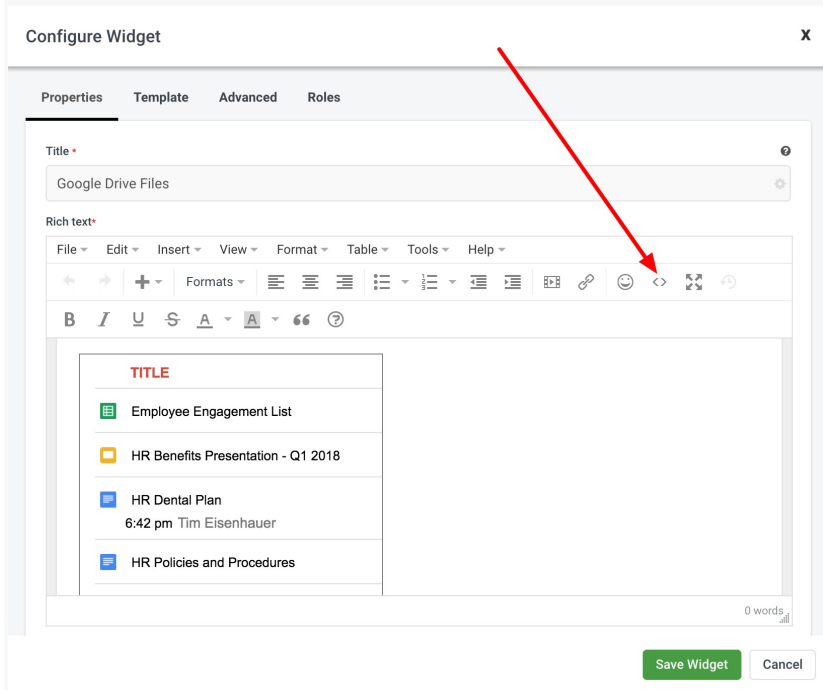

Published 3/10/2017 05:55 PM by [Tim Eisenhauer Axero](#) Last updated 5/17/2021 10:14 PM by [Grace Kamau Axero Solutions](#)

Embed a Google Drive folder in Communifire to provide a list of documents for people to click and launch into the Google Drive.

You can also sync your Google Drive in Communifire. See [Google Drive Integration Administrator Setup](#) and [Google Drive Integration User Setup](#).

Display List of Documents from Google Drive

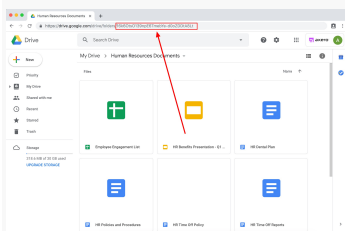

You will first need to create a new page using [Page Builder](#). From there, choose your layout and then drag and drop a Rich Text widget onto the page. Double click on the widget to open the properties window. Give the widget a title, such as *Google Drive Files*, or any title you prefer. In the Rich text section, click on the Source code icon.

In the window that opens, copy and paste the following HTML code.

```
<div><iframe width="100%" height="450" src="https://drive.google.com/embeddedfolderview?id=0B0Uwm8HOGR3xZmwxUmNiLWtGQTg#list" frameborder="0"></iframe></div>
```

In Google Drive, navigate to the folder that you would like to display in Communifire. Replace the bold string in the above code with your own unique string from Google Drive.

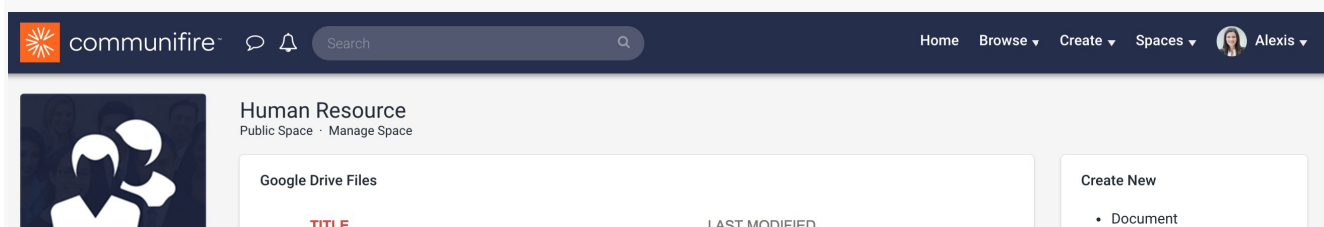

Click the Save button to close the source code editor.

Then click Save Widget.

Then click Publish Changes.

Then click Go to page.

You should see your list of documents in Google Drive. It will look something like this:

Human Resources

Activity Stream

Info

People

Search

Articles

Blogs

Calendar

Cases

Discussions

Files

 Employee Engagement List	Jan 3 Tim Eisenhauer
 HR Benefits Presentation - Q1 2018	Jan 3 Tim Eisenhauer
 HR Dental Plan	Jan 3 Tim Eisenhauer
 HR Policies and Procedures	Jan 3 Tim Eisenhauer
 HR Time Off Policy	Jan 3 Tim Eisenhauer
 HR Time Off Reports	Jan 3 Tim Eisenhauer
 Volunteer Locations & Contacts	Jan 3 Tim Eisenhauer

- Spreadsheet
- Form
- Slides

Note: To see the list of files, you and your users must be logged into Google Drive and have permissions/access to the folder that you embed. If you are not logged into Google Drive and/or do not have access to the folder, you will not see the list of files.
