Content Management System (CMS) in Communifire is a way to create custom pages with your own content. In the Control Panel, you can create and manage CMS pages and categories for the top level community.

Manage Top Level CMS Pages

Managing top level CMS pages is similar to managing space CMS pages.

[Manage Space: CMS Pages](#)

manage Space: CMS Pages

Manage Space: Add CMS Page

Manage Space: Delete CMS Pages

Manage Space: Edit CMS Page

Manage Space: CMS Page Categories

CMS Page Permissions
