

Delete Workflows

Version 8

Published 4/3/2017 12:10 AM by [Anonymous User](#) Last updated 4/13/2021 10:32 PM by [Grace Kamau](#)

To delete workflow, you must first activate a different workflow for that content type. The status of the workflow you want to delete must be Pending. A workflow may not delete if content is waiting to be approved.

In the Control Panel, you can delete workflows for the top level community or spaces.
