Embed pages from other websites with the iframe widget.

Note: If the iframe widget's dimensions are set in pixels, the iframe will not resize when the window resizes.

The screenshot displays the Axero Solutions Blog homepage. At the top left, the text "Axero Solutions Blog" is visible. Below this is the Axero logo, which consists of a stylized 'A' icon followed by the word "axero". To the right of the logo is a hamburger menu icon. The main content area has a dark background. On the left side, the word "Blog" is written in white. On the right side, the word "Categories" is written in white. In the center, there are three colored circles (purple, blue, and green) arranged horizontally. Below the circles, the title "The Axero Blog" is prominently displayed in a large, white, sans-serif font. Underneath the title, a subtitle reads: "Strong opinions on intranets, employee engagement, and making your organization a better place to work." Below the subtitle, there is a line of text that says "As seen on:" followed by the logos for TIME, Forbes, FORTUNE, FAST@COMPANY, and Inc. At the bottom of the main content area, there is a dark grey box containing the text "Join Over 57,312 People Who Already Subscribed!". Below this text is a white input field with the placeholder text "Enter your email address" and an orange button with the text "Subscribe to Email Updates". At the very bottom of the page, there is a dark navigation bar. On the left side of this bar is a white box containing the number "11". To the right of this box are several social media icons: Facebook (with the number "11" below it), Twitter, Google+, LinkedIn, a stack of three books, and an envelope icon representing email.
