

Clone Page Builder Page

Version 12

Published 4/28/2017 02:55 AM by [Anonymous User](#) Last updated 11/15/2022 03:53 PM by [JD Flores](#)

Clone a Page Builder page to reuse a page layout. The layout, widgets, and configurations will all be copied. The clone can then be modified to meet the new page's use case.

NOTE: If the page being cloned is using a Master template, the page will be cloned and linked to the Master template.
