

Edit Registration Page

Version 8

Published 4/16/2018 11:05 PM by [Grace Kamau](#) Last updated 6/22/2021 07:02 PM by [Grace Kamau](#)

Edit the registration page to add fields to the registration page, change the layout, or rename fields.

1. Click the gear icon > **Control Panel** > **People** > **User Profiles**.
2. For the **Registration** page, click the gear icon > **Edit Page**.
3. Make changes to the page.
 - Note: To expand a profile section, click the gear icon > **Expand**.
4. To add a field to the registration page:
 - a. On the **Register** section, click the gear icon > **Expand**.
 - b. Click **Widgets**.
 - c. Click **Fields**.
 - d. Drag a field onto the page, in the **Register** section.
5. Click **Publish changes**.

How to Hide the Registration Form

You can hide the registration form to prevent people from registering on your site.

1. On the **Register** section, click the gear icon > **Edit Properties**.
2. Click **Advanced**.
3. In **Custom CSS class**, enter `hide` .
4. Click **Save Widget**.
5. Click **Widgets**.
6. Drag a **Rich Text** widget onto the page, below the **Register** section.
7. On the **Rich Text** widget, click the gear icon > **Edit properties**.
8. Update the **Title**. (e.g. *How to login*)

9. In the editor, enter a message to display on the registration page. (e.g. *The Communifire Intranet is an internal network for ACME employees only. Please check your email for login instructions then login [here.](#)*)

10. Click **Save Widget**.

11. Click **Publish changes**.

The registration page will look like this:
