

Rebuild Activity Feed

Version 4

Published 5/14/2018 04:27 PM by [Grace Kamau](#) Last updated 3/15/2023 03:58 PM by [Christopher Hercules](#)

The activity feed used by [My Activity Ticker](#) , [Space Activity Ticker](#) , and [Activity Emails](#) and is maintained in the background whenever permission or access changes occur. If for some unforeseen reason the feed is not updated properly clicking the below will remove the feed for each user and rebuild it. Depending on the size and activity of your site, a user might not have access to their activity feed for several seconds while it is rebuilding.

Note: These are advanced settings. If not properly configured, they could affect the stability of the platform.

Rebuild Search Index

Rebuild Search Index refreshes your content and rebuilds the search index. You may need to refresh your content if you notice anything is missing from Activity Streams, a Page Builder page, or from your Search results. This could take between a few minutes and a few hours depending on how much content you have on the site. Do not close the browser window. We recommend rebuilding your search index during non-business hours.

Elasticsearch indexing was successfully completed.

REBUILD INDEX

Restart Site

Restarting the site will unload the app domain and will restart it. Depending on the size of your site this could take from less than a minute to several minutes.

RESTART SITE

Rebuild Activity Feed

The activity feed used by the Activity Ticker and Space Digest email is maintained in the background whenever permission or access changes occur. If for some unforeseen reason the feed is not updated properly clicking the below will remove the feed for each user and rebuild it. Depending on the size and activity of your site, a user might not have access to their activity feed for several seconds while it is rebuilding.

REBUILD ACTIVITY FEED

Rebuild Activity Log Index

Rebuild Activity Log Index refreshes your activity log index. This could take some considerable time depending upon the data in the activity log tables. Do not close the browser window. We recommend rebuilding your activity log index during non-business hours.
