

Navigation List Widget

Version 10

Published 5/23/2018 08:36 PM by [Grace Kamau](#) Last updated 5/11/2021 06:18 PM by [Grace Kamau](#)

Note: Using this widget requires HTML knowledge. We recommend using the [Navigation Widget](#) and [Default Unordered List Template](#) instead.

Use the Navigation List widget to link to features and content.

How to Get Support

-  [Communifire Support Community](#)
-  [Support Forums](#)
-  [Documentation](#)
-  [Helpful Videos](#)

Add Widget to Page

1. Click the gear icon > **Page Builder**.
2. Add or edit a page.
3. Click the **Layouts** tab and add a layout onto the page.
4. Click the **Widgets** tab.
5. Drag a **Raw HTML** widget onto the page. This template is best used in small to mid-sized columns - between 4 and 6.
6. On the Raw HTML widget, click the gear icon > **Edit properties**.
7. Update the widget **Title**.
8. In the editor, paste the following code.

```
<div class="axero-widget axero-widget-nav-list">
  <div class="axero-widget-header">
    <h3>How to Get Support</h3>
  </div>
  <div class="axero-widget-body axero-widget-content-padded">
    <ul>
      <li><a target="_blank" href="https://my.axerosolutions.com/"><i class="icon-question-sign"></i> Communifire Support Community</a></li>
      <li><a target="_blank" href="https://my.axerosolutions.com/spaces/77/communifire-support/help/welcome"><i class="icon-comment"></i> Support Forums</a></li>
      <li><a target="_blank" href="https://my.axerosolutions.com/spaces/5/communifire-how-to-user-guides"><i class="icon-book"></i> Documentation</a></li>
      <li><a target="_blank" href="http://my.axerosolutions.com/spaces/5/communifire-how-to-amp-user-guides/videos"><i class="icon-facetime-video"></i> Helpful Videos</a></li>
    </ul>
  </div>
</div>
```

9. Replace *How to Get Support* with your own title.
10. Make changes to the code to display your own links and icons. Refer to [Customize the Navigation List Widget](#) below.
11. Click **Save Widget**.
12. Click **Publish changes**.
13. Click **Go to page**.

Customize the Navigation List Widget

Change Link and Link Text

Each item in the Navigation List widget starts with `` .

- To update an item's link, modify the `href` attribute of the `a` element.
- To update an item's text, modify the text that appears after `</i>` and before `` .

Change Icons

1. Search for an icon in [FontAwesome](#).
2. Click the icon.
3. Click the icon HTML to copy it to your clipboard.
4. In the Raw HTML widget, find the line you want to update.
5. Replace the `<i>` element with the code you copied. (For example, replace `<i class="icon-question-sign"></i>` with `<i class="fa fa-question-sign"></i>`.)

5. Replace the `li` element with the code you copied. (For example, replace `<li class="icon-question-sign">` with `<li class="icon-tablet">`)

Add Links

The format for a link is:

```
<li><a target="_blank" href="(URL)"><i class="(ICON_CSS_CLASS)"></i> (LINK_TEXT)</a></li>
```

Add new links on new lines, in the section after `` and before ``.
