CommuniFire provides RSS feeds you can use in your favorite reader to stay up-to-date on new content. To get the RSS feed URL, right-click the feed icon on the content homepage, and copy the link. Enter the link in your RSS reader.

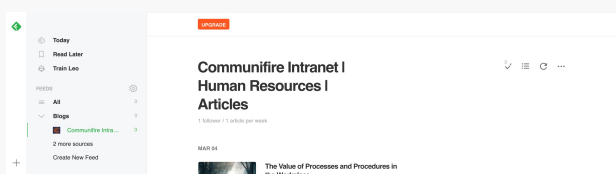

Note: If your intranet is private, the RSS feed URL includes a unique key. The key is different for each user, and should not be shared with others.

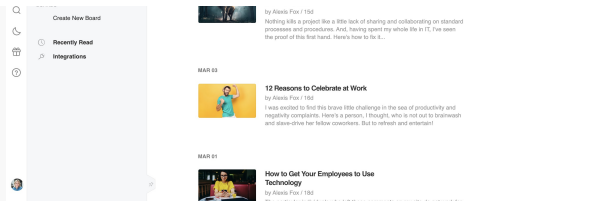

Supported content types:

- Articles *
- Blogs *
- CMS Pages *
- Files *
- Ideas
- Photos and albums
- Videos *
- Wikis *

Example Feed

This is an example of an articles feed in [Feedly](#).

RSS Feed URL

* These content types do not have a feed icon, but still have a feed available. You can manually construct the RSS feed URL using the following format:

```
https://myintranet.communifire.com/rss-content.ashx?Spaceid={SpaceID}&TypeID={EntityTypeID}&key={KEY}
```

Entity type IDs:

- Article = 3
- Blog = 4
- CMS Page = 12
- File = 14
- Video = 7
- Wiki = 9
