

## User Welcome Guide

Version 3

Published: 9/6/2019 07:17 PM by [Gina Kenna](#). Last updated: 9/5/2019 11:24 PM by [Gina Kenna](#).

This video provides a quick overview of the internet so users can find their way around and get familiar with different areas and features.

You can add this video to your internet to train new users. Download the video and upload it to your internet, or use the embed code below.

[Download Video](#)

Embed code:

```
<img alt="User Welcome Guide video" data-bbox="81 125 924 134" style="width: 100%; height: 100%; border: 1px solid #ccc; background-color: #f0f0f0;"/>The embed code is a single line of HTML code that uses the <img> tag to embed a video player. The code is currently obscured by a large, light gray rectangular box that covers the entire content area of the page.
```

Note: To use the embed code in content, first go to Control Panel > System > System Properties, search for HTMLSanitizeAllowedPages, add the property, and add `video` to the list.
