Content REST API Documentation

List of supported entities: Articles, Blogs, CMS Pages, Wikis, Files, Photos, Videos, Ideas.

[REST API: System Entity Types](#)

[REST API: Activity Action ID](#)

[REST API: Content Object Overview](#)

[REST API: Create Content](#)

[REST API: Update Content](#)

[REST API: Delete Content](#)

[REST API: Set Content Status](#)

[REST API: Get Content](#)

[REST API: Get Content List](#)

[REST API: Get Multiple Content](#)

[REST API: Update Wiki Sort Order](#)

[REST API: Add Featured Image](#)

[REST API: Add Attachment](#)

[REST API: Delete Attachment](#)

REST API: Get Attachment

REST API: Get Attachments

REST API: Set Content Read Status

REST API: Get Content Read Status

REST API: Follow Content

REST API: Unfollow Content

REST API: Get Content Followers

REST API: Add Photos

REST API: Get Queued Workflow Content

REST API: Get Unread Contents

REST API: Get Announcements

REST API: Increase View Count

REST API: Search

REST API: Get Search Analytics

Content Category

REST API: Content Category

REST API: Category Overview

REST API: Create Content Category

REST API: Update Content Category

REST API: Delete Content Category

REST API: Get Content Category

REST API: Get Content Categories

Cases

[REST API: Cases](#)

[REST API: Case Overview](#)

[REST API: Create Case](#)

[REST API: Update Case](#)

[REST API: Add Attachment to Case](#)

[REST API: Update Case Status](#)

[REST API: Delete Case](#)

[REST API: Get Case](#)

[REST API: Get Cases](#)

[REST API: Get Case Priorities](#)

[REST API: Get Case Projects](#)

[REST API: Get Case Statuses](#)

[REST API: Get Case Project Categories](#)

[REST API: Get Case Project Milestones](#)

[REST API: Get Case Status Stats](#)

[REST API: Case Comments](#)

[REST API: Case Comment Overview](#)

[REST API: Create Case Comment](#)

[REST API: Update Case Comment](#)

[REST API: Delete Case Comment](#)

[REST API: Get Case Comment](#)

[REST API: Get Case Comments](#)

[REST API: Add Case Comment Attachment](#)

Events

[REST API: Events](#)

[REST API: Event Overview](#)

[REST API: Event Attendance Types](#)

[REST API: Event List Display Types](#)

[REST API: Create Event](#)

[REST API: Update Event](#)

[REST API: Delete Event](#)

[REST API: Get Event](#)

[REST API: Get Events](#)

[REST API: Get Events By User ID](#)

[REST API: Get Calendar Events](#)

[REST API: Invite Users to Event](#)

[REST API: Add Space Members to Event](#)

[REST API: Update RSVP](#)

[REST API: Get My RSVP](#)

[REST API: Get User RSVP](#)

[REST API: Delete User From Event](#)

[REST API: Get Event Attendees](#)

[REST API: Get Event Invitees](#)

[REST API: Get Guest Attendees](#)

REST API: Get Guest Invitees

REST API: Get Attendance Stats

REST API: Mark As Organizer

REST API: Update Event View Count

REST API: Get Countries

REST API: Get States

REST API: Event Reminders

REST API: Event Reminder Types

REST API: Create Reminder

REST API: Delete Reminder

REST API: Get Reminders

REST API: Event Resources

REST API: Create Event Resource

REST API: Delete Event Resource

REST API: Get Event Resource

REST API: Get Event Resources

REST API: Get Event Resource Availability

REST API: Get Event Resource Types

REST API: Event Types

REST API: Event Type Overview

REST API: Create Event Type

REST API: Update Event Type

[REST API: Delete Event Type](#)

[REST API: Get Event Type](#)

[REST API: Get Event Types](#)

Files

[REST API: Files](#)

[REST API: File Directory Overview](#)

[REST API: Create File Directory](#)

[REST API: Update File Directory](#)

[REST API: Delete File Directory](#)

[REST API: Get File Directory](#)

[REST API: Check File Directory Name Availability](#)

[REST API: Get Child Directories](#)

[REST API: Get Parent Directories](#)

[REST API: Get Space Directories](#)

[REST API: Get Space Root Directory](#)

[REST API: Add File](#)

[REST API: Check In File](#)

[REST API: Check Out File](#)

[REST API: Undo Check Out File](#)

[REST API: Delete File](#)

[REST API: Delete Multiple Files](#)

[REST API: Restore File](#)

[REST API: Move File](#)

[REST API: Get Files](#)

[REST API: Get Directory Files](#)

[REST API: Get Recycled Files](#)

[REST API: Get Space Files](#)

[REST API: Check File Name Availability](#)

Forums

[REST API: Forums](#)

[REST API: Forum Overview](#)

[REST API: Create Forum](#)

[REST API: Update Forum](#)

[REST API: Delete Forum](#)

[REST API: Get Forum](#)

[REST API: Get Forums](#)

[REST API: Set Forum Status](#)

[REST API: Check Forum Stub Availability](#)

[REST API: Change User Forum Subscription](#)

[REST API: Check User Forum Subscription](#)

[REST API: Forum Groups](#)

[REST API: Create Group](#)

[REST API: Update Group](#)

[REST API: Delete Group](#)

REST API: Get Group

REST API: Get Groups

REST API: Set Group Status

REST API: Check Forum Group Stub Availability

REST API: Forum Topics

REST API: Create Topic

REST API: Update Topic

REST API: Delete Topic

REST API: Get Topic

REST API: Set Topic Status

REST API: Check User Topic Subscription

REST API: Change User Topic Subscription

REST API: Forum Posts

REST API: Create Post

REST API: Update Post

REST API: Mark Reply as Answer

Ideas

REST API: Ideas

REST API: Get Idea Votes

REST API: Get My Idea Vote

REST API: Upvote Idea

REST API: Downvote Idea

REST API: Get Idea Stages

REST API: Check Idea Stage Availability

Polls and Surveys

REST API: Polls and Surveys

REST API: Get Poll

REST API: Get Polls

REST API: Get Poll Results

REST API: Vote for Poll

REST API: Create Poll

REST API: Add Poll Choice Image

REST API: Delete Poll

Tasks

REST API: Get Task List

REST API: Get Task Lists

REST API: Add Task List

REST API: Update Task List

REST API: Delete Task List

REST API: Get Task

REST API: Get Tasks

REST API: Get Tasks In List

REST API: Get Task Followers

REST API: Add Task

[REST API: Add Task Followers](#)

[REST API: Update Task Assigned User](#)

[REST API: Delete Task](#)

[REST API: Get Task Time Log](#)

[REST API: Get Task Time Logs](#)

[REST API: Add Task Time Log](#)

[REST API: Delete Task Time Log](#)

[REST API: Get Task Priorities](#)

[REST API: Get Task Statuses](#)

Videos

[REST API: Videos](#)

[REST API: Create Video](#)

[REST API: Update Video](#)

Wall Posts

[REST API: Wall Posts](#)

[REST API: Create Wall Post](#)

[REST API: Create Wall Post Comment](#)

[REST API: Delete Wall Post](#)

[REST API: Delete Wall Post Comment](#)

[REST API: Get Wall Post](#)

[REST API: Get User's Wall Posts](#)

[REST API: Get Space Wall Posts](#)

[REST API: Add Wall Post Attachment](#)

[REST API: Get Link Metadata](#)

[REST API: Get Video Player HTML](#)

[REST API: Get User's Wall Post Count](#)

[REST API: Get Space Wall Post Count](#)

[REST API: Get Activity Stream](#)

[REST API: Get Activity Stream of a User](#)

[REST API: Get Activity Ticker of a Space](#)

[REST API: Get Activity Ticker of a User](#)

Abuse Reports

[REST API: Abuse Reports](#)

[REST API: Get Abuse Report Types](#)

[REST API: Get Abuse Report](#)

[REST API: Report Abusive Content](#)

Bookmarks

[REST API: Bookmarks](#)

[REST API: Create Bookmark](#)

[REST API: Update Bookmark](#)

[REST API: Delete Bookmark](#)

Content Likes

[REST API: Content Likes](#)

[REST API: Get Content Likes](#)

REST API: Like Content

REST API: Unlike Content

REST API: Dislike Content

REST API: Undislike Content

Tags

REST API: Tags

REST API: Get Tags

REST API: Add Tags

REST API: Get Tag Groups

tags : API, content, site-administrator
