

# How to Get a Profile Field ID

Version 8

Published 1/23/2020 08:38 PM by [Grace Kamau](#) Last updated 4/13/2021 10:19 PM by [Grace Kamau](#)

Learn how to get a profile field ID to use in the [Bulk Import Users](#) CSV file, for use with the [REST API](#) , for troubleshooting, or to cross reference other data.

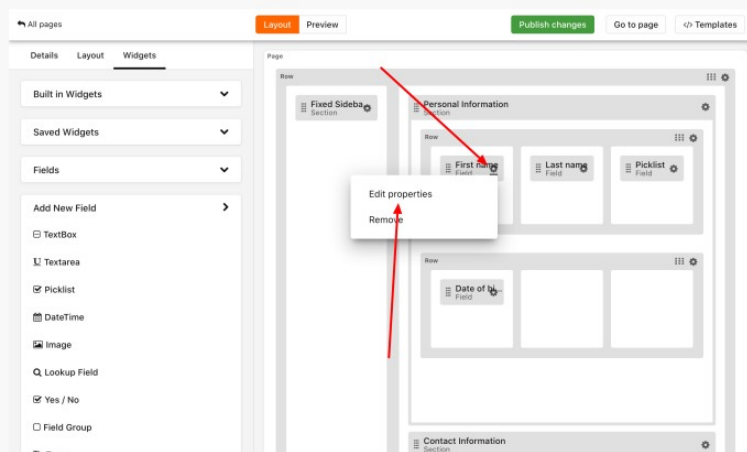

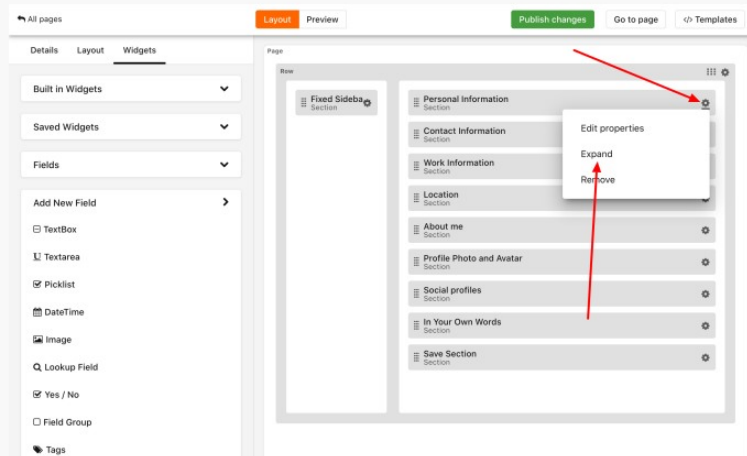

Edit the page where the field is, usually [Edit Profile](#) or [User Level Preferences](#) .

Click the gear icon

Click Edit Page

## Alternative Way

1. Visit the page where the field is, usually [Edit Profile](#) or [User Level Preferences](#) .
2. Right-click the field label.
3. Click Inspect.
4. In the panel that appears, a line will be highlighted. Find the code above the highlighted line that includes `data-fieldid="NUMBER"` . NUMBER is the field ID.
