

Manage Space: External Drives

Version 11

Published 1/23/2020 09:16 PM by [Grace Kamau](#) Last updated 6/18/2021 11:53 PM by [Grace Kamau](#)

In Manage Space, you can manage external drives for a space. Add a cloud storage drive to bring external files into Communifire. Once a user connects their external account in Files, they can view, search for, and download external files right in Communifire. You can even upload files to your external account from Communifire. Communifire supports two-way syncing for Box, Dropbox, Google Drive, Sharepoint, and OneDrive. Check out our integration setup guides linked below for instructions on setting up a specific integration.

Delete External Drive

Delete an external drive to remove cloud storage from a space. All files from the external cloud storage will be deleted from Communifire.

1. From the space, click **Manage Space > External Drives**.
2. For the external drive, click the delete icon.
3. Click **Yes**.
