

# REST API: Approve/Decline Space User

Version 12

Published 3/29/2011 08:10 AM by [Vivek Thakur](#) Last updated 2/4/2019 12:37 PM by [Anonymous User](#)

## Approve/decline space user

### PUT /api/spaces/{spaceid}/users/{userid}/membership/status

Users need approval to join moderated spaces. This join request goes to the space admin; who can approve or decline the request. This can be done by passing "true/false" in the request body for approving/declining user's space join request. Valid for Communifire version 5.2 and above.

## Method Details

HTTP Method

PUT

Response Format

JSON

Requires Authentication?

YES

Product Version

5.2 and above
