The Default Unordered List Group template displays groups in a Navigation widget using the Default Unordered List Template. The template is a built-in template and comes with your Communifire site.

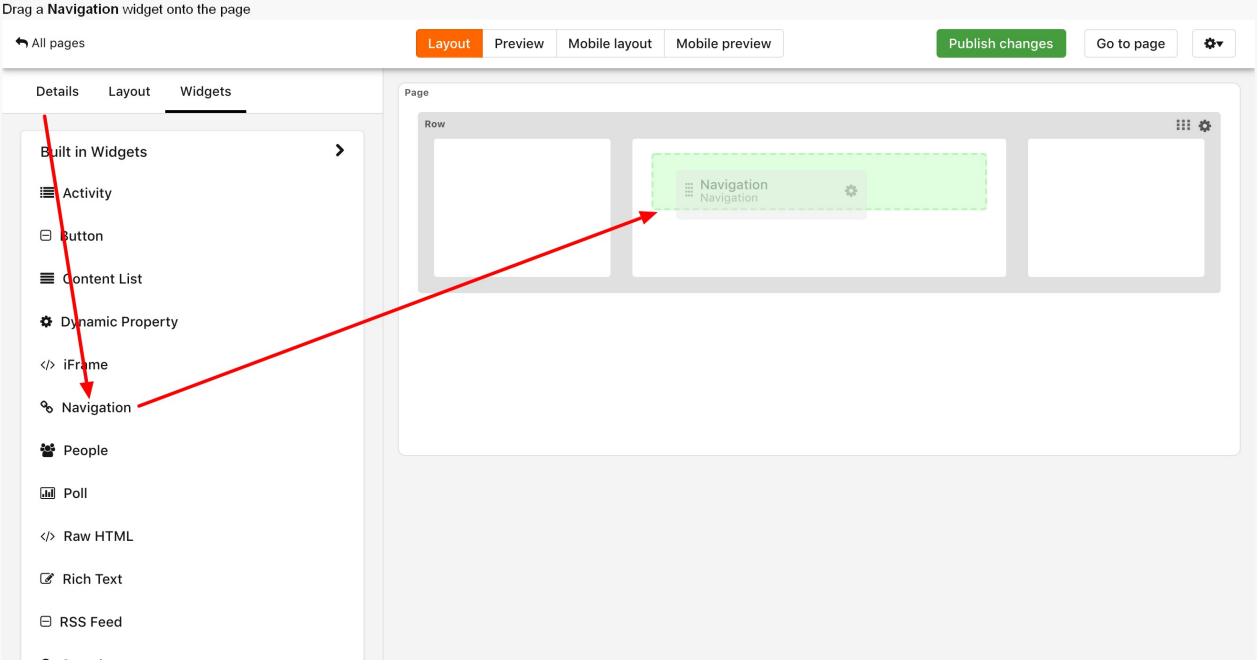

How to Create the Sample Menu

1. Add or edit a Page Builder page in **Control Panel** > **System** > **Page Builder**
2. Click the **Widgets** tab

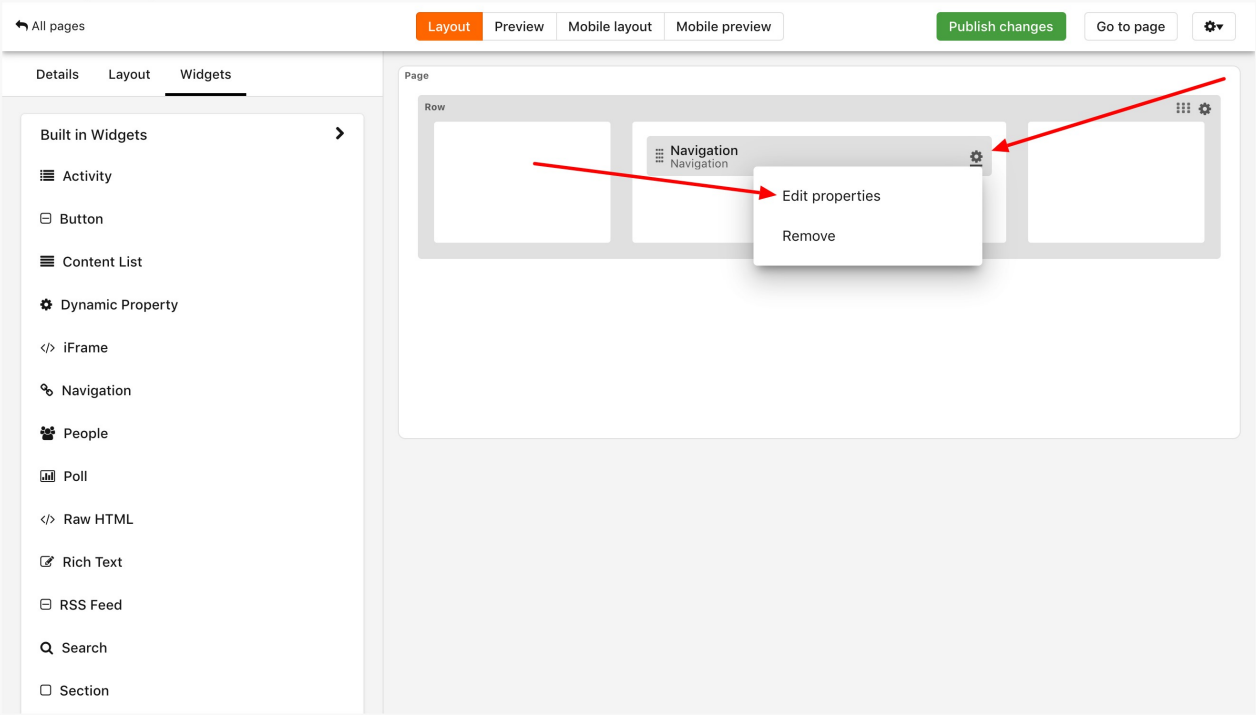

3. Drag a **Navigation** widget onto the page

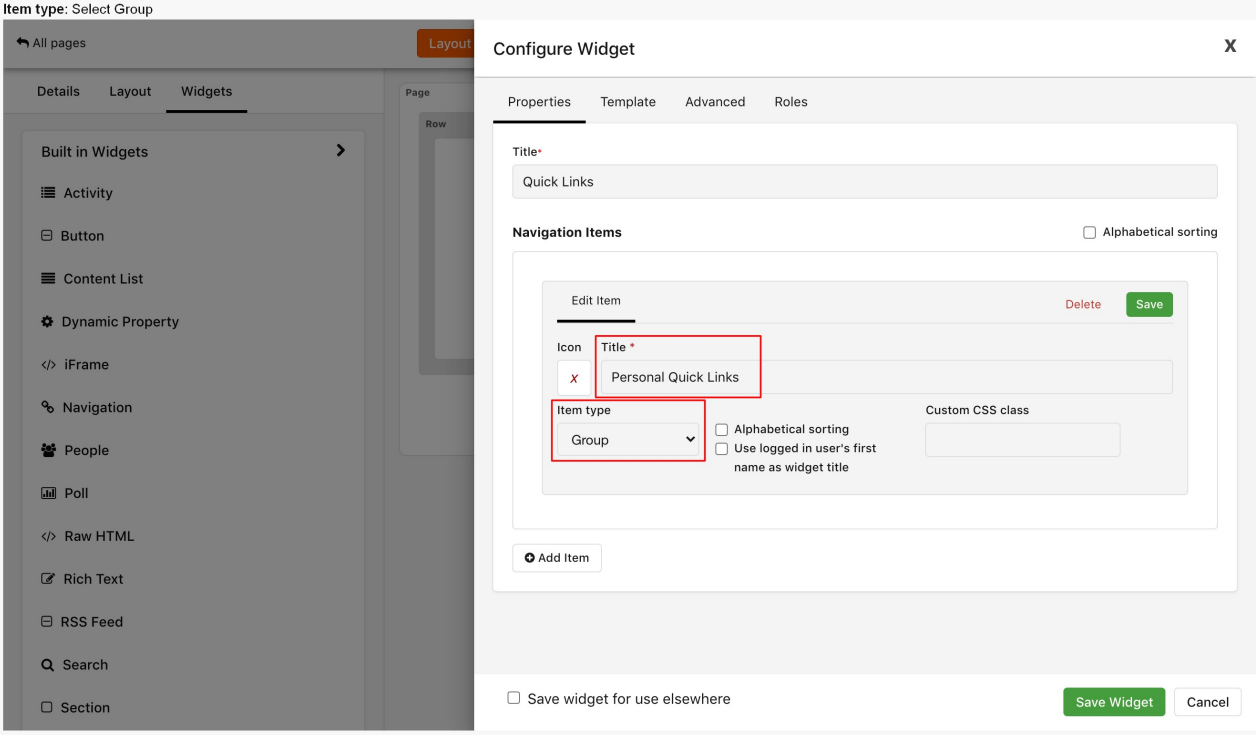

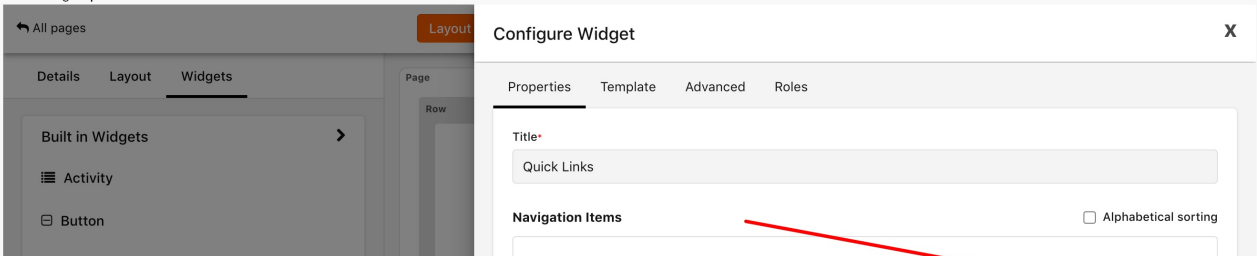

4. Edit the **Navigation** widget

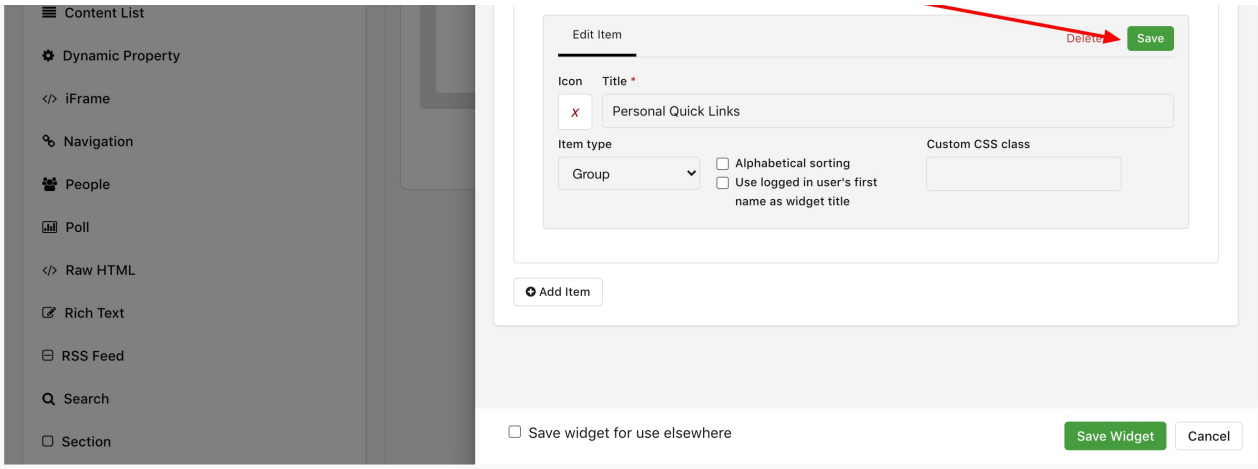

5. Update the widget **Title**
6. In **Navigation items**, configure a group:
   - **Title**: Enter the text to display
   - **Item type**: Select Group

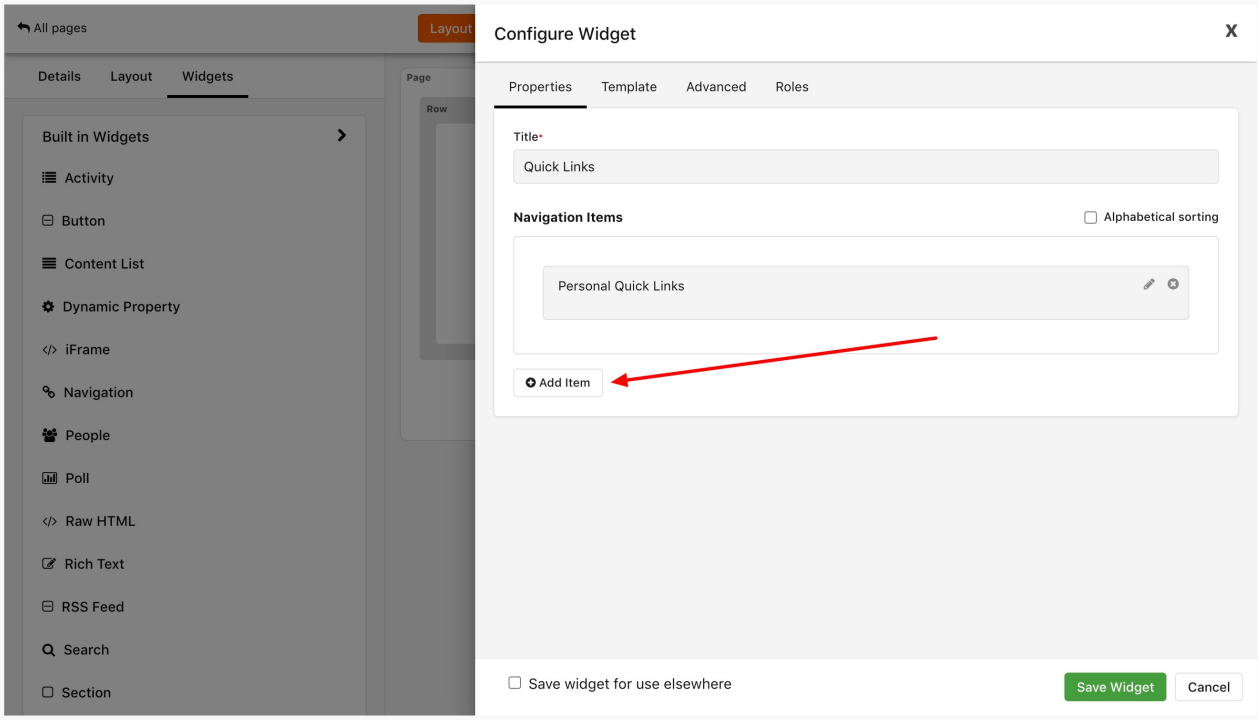

7. **Save** the group

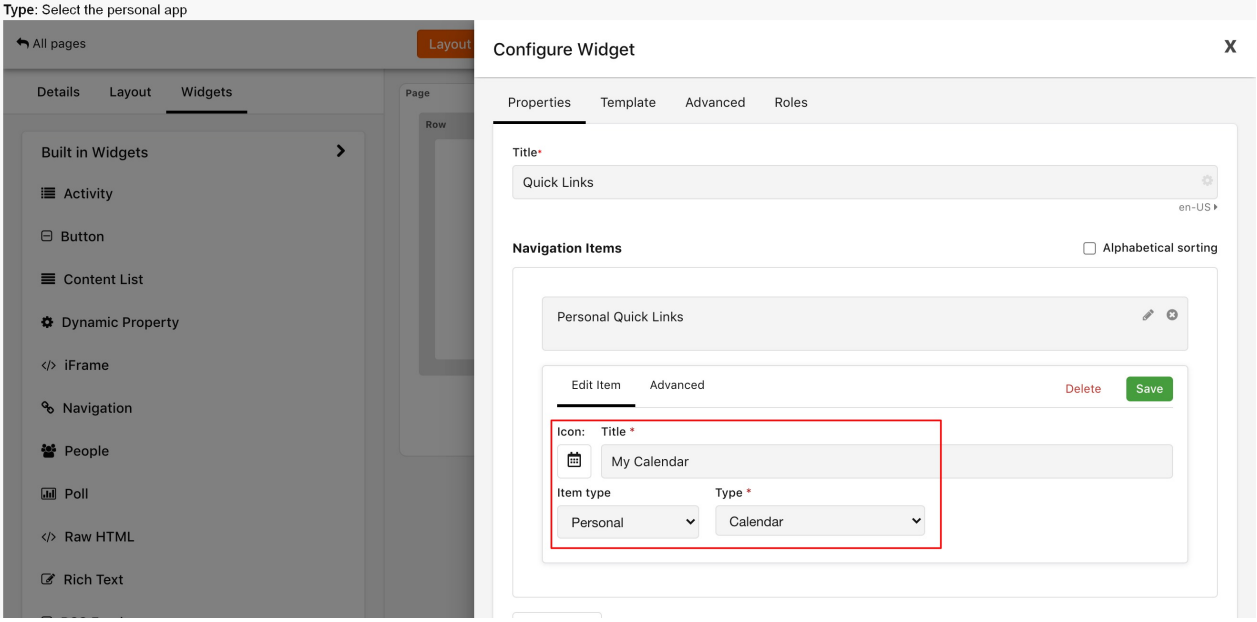

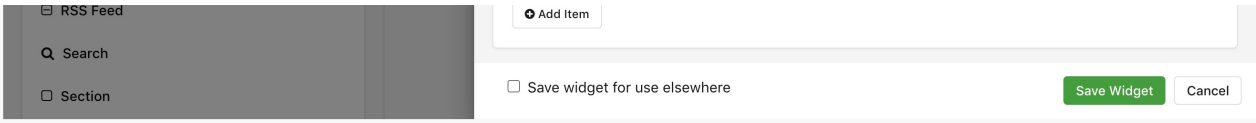

8. Click **Add item**

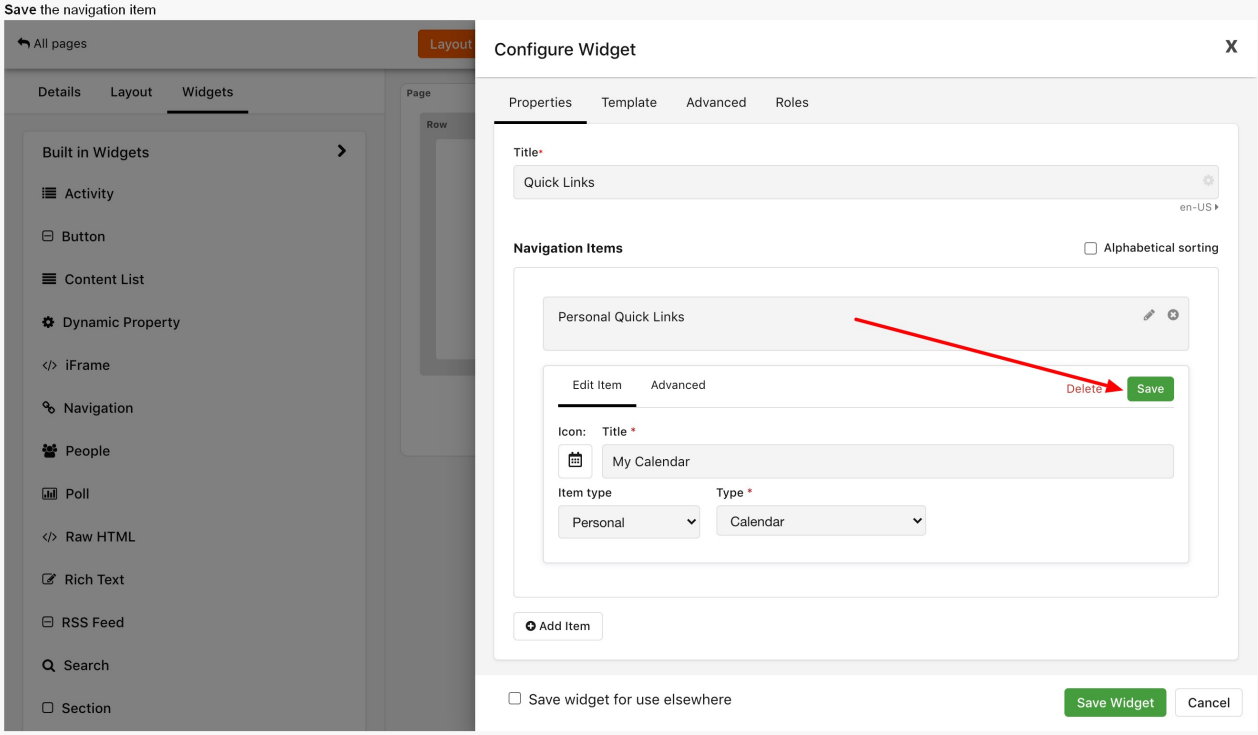

9. Configure an item:
   - **Icon**: Click to open the icon selector and select an icon
   - **Title**: Enter the text to display
   - **Item type**: Select Personal
   - **Type**: Select the personal app

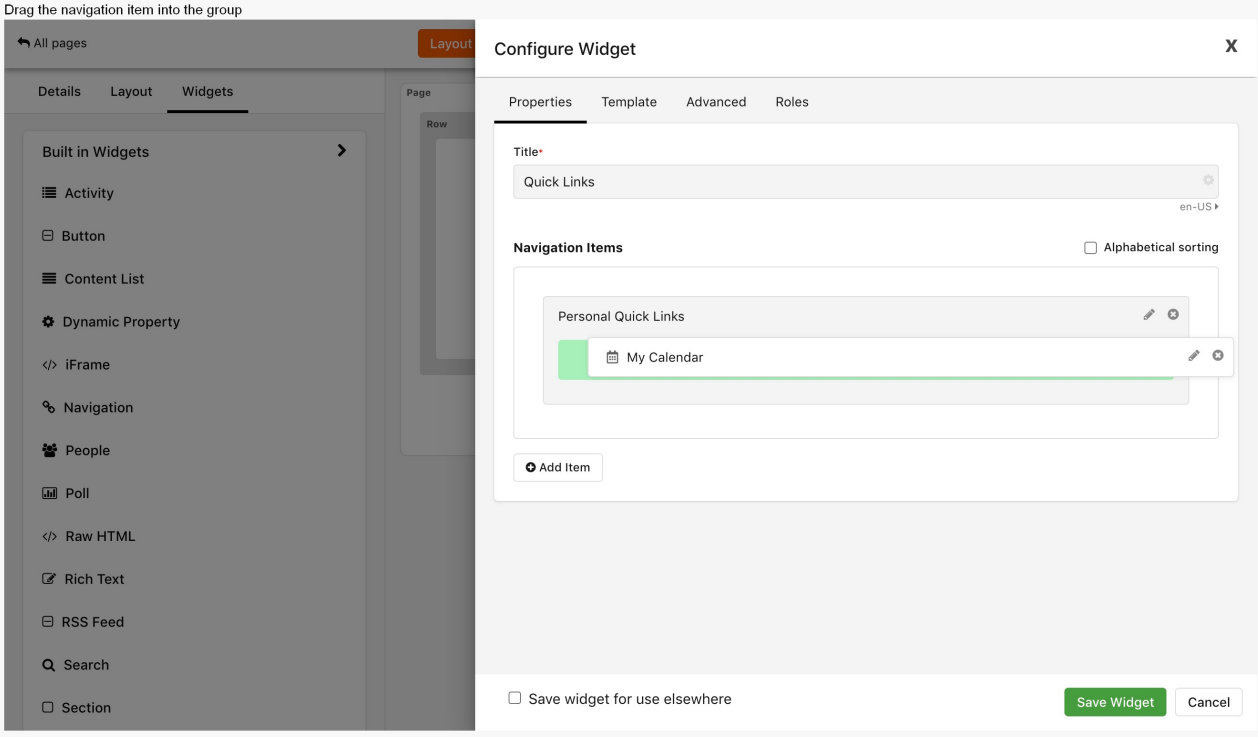

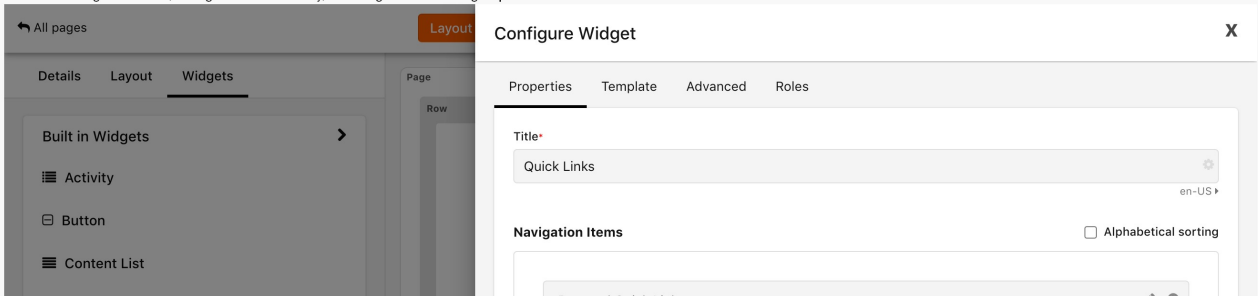

10. **Save** the navigation item

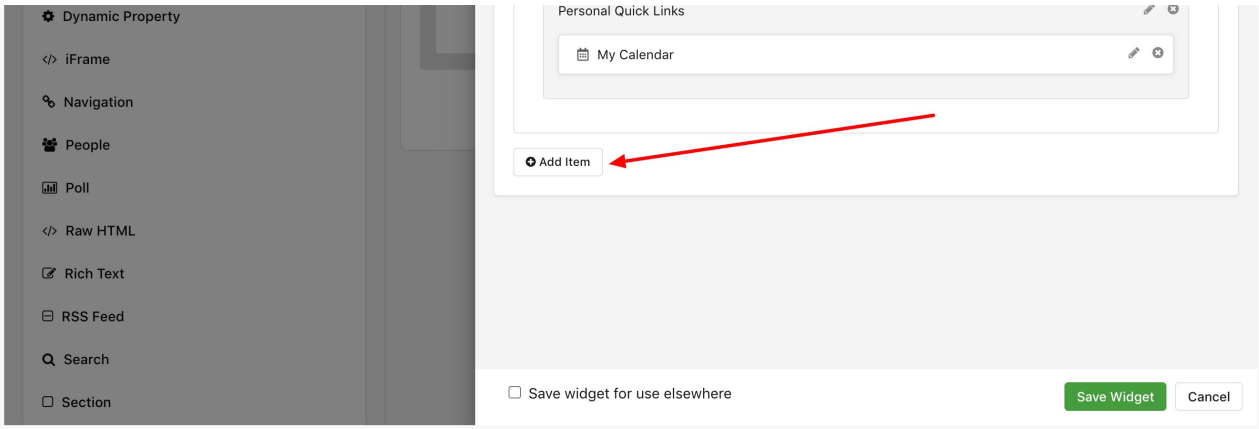

11. Drag the navigation item into the group

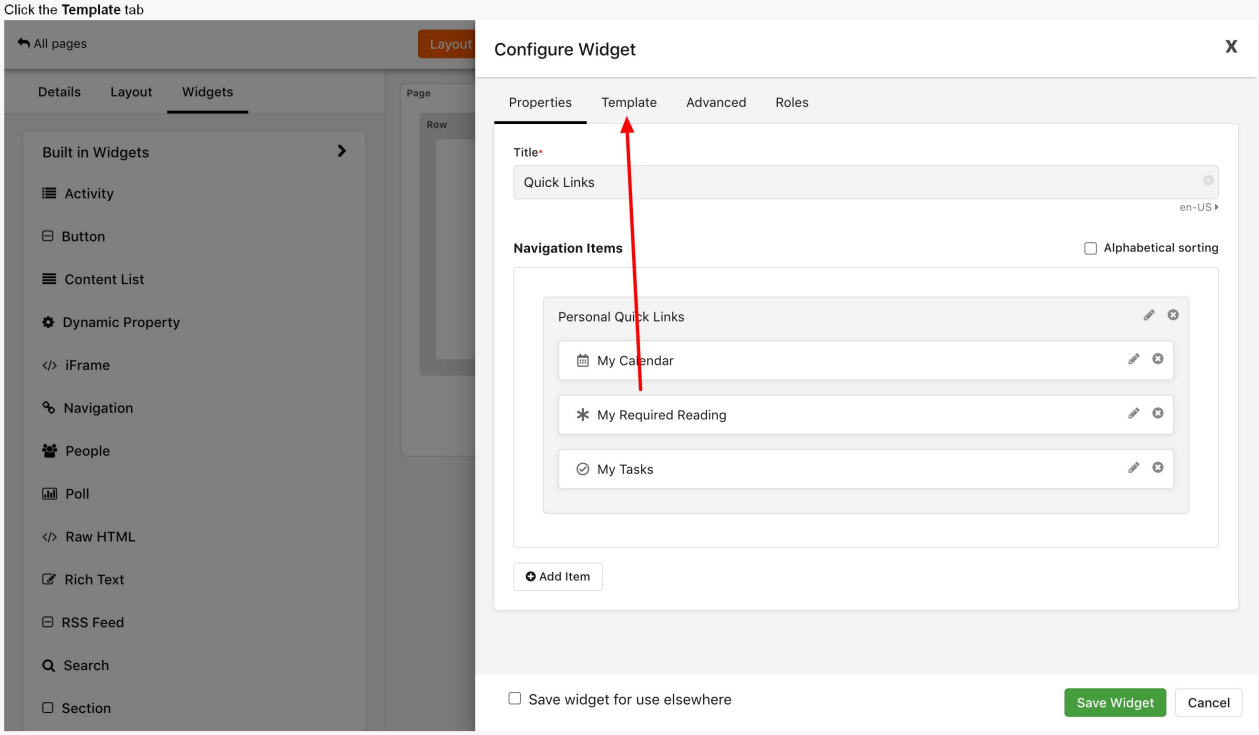

12. Add more navigation items, configure them similarly, and drag them into the group

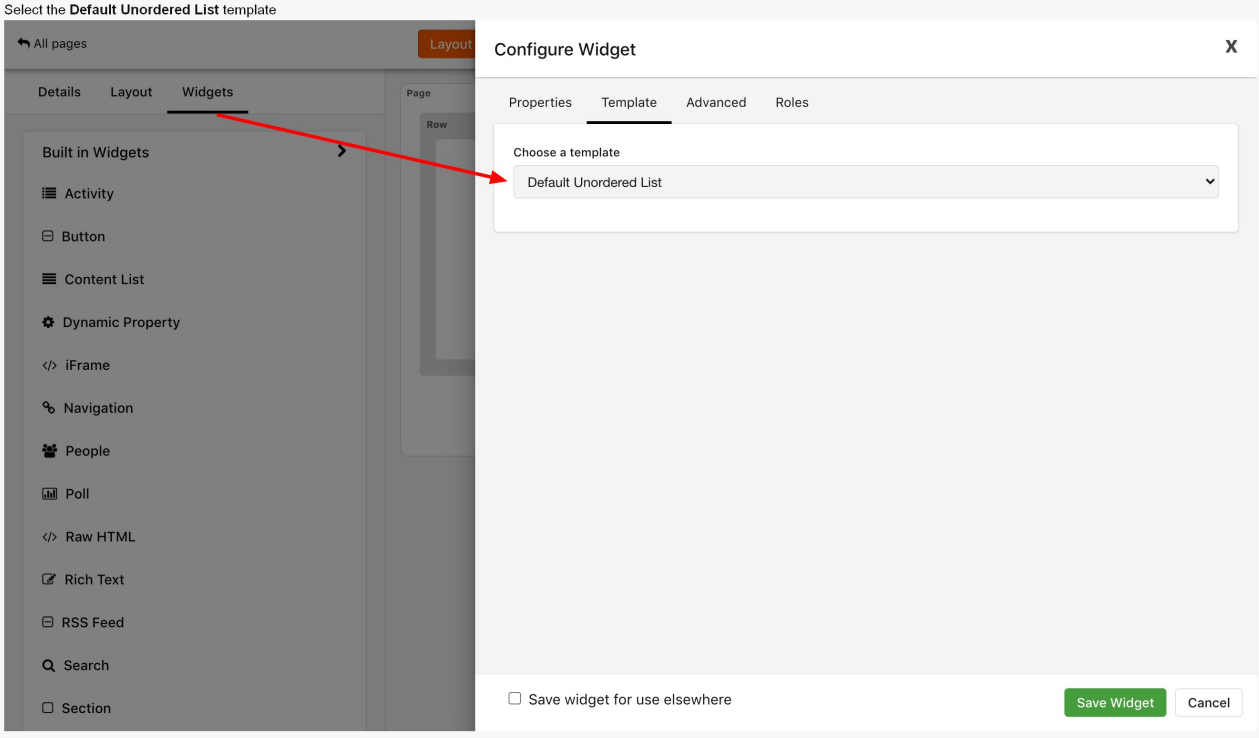

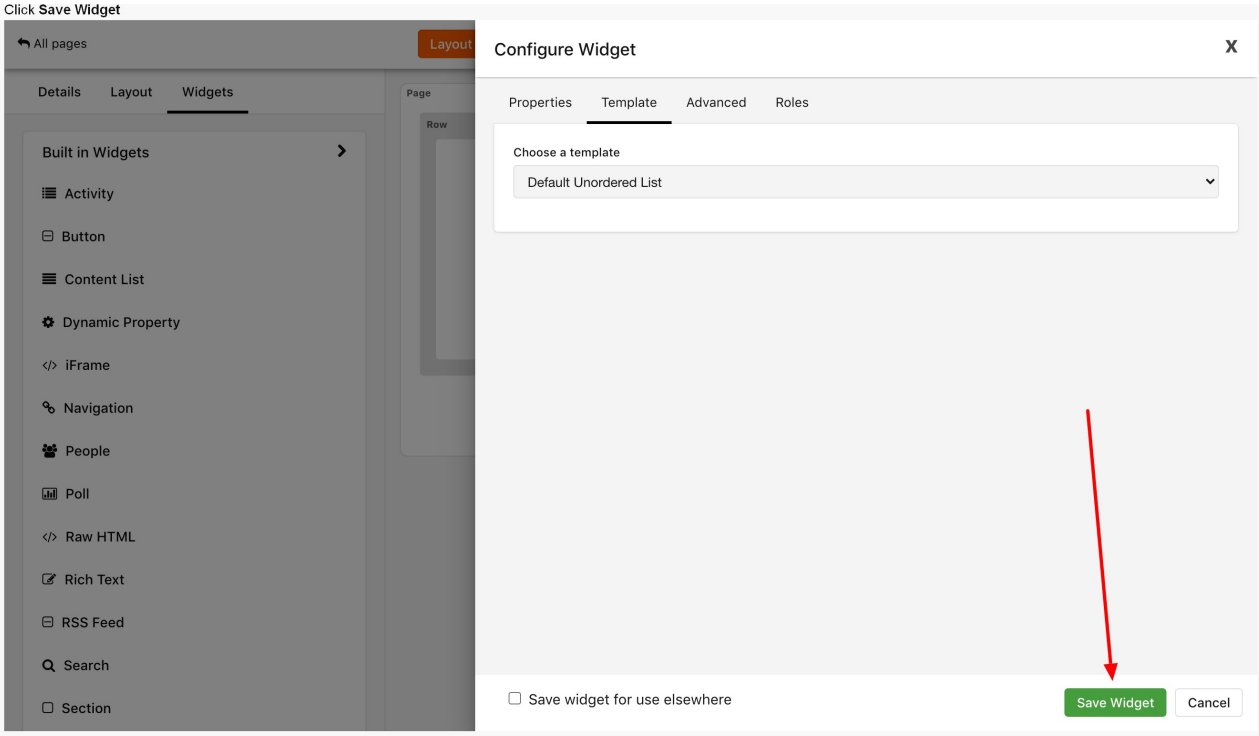

13. Click the **Template** tab

14. Select the **Default Unordered List** template

15. Click **Save Widget**

16. Publish the page
