

Notifications List Template

Version 6

Published 10/15/2020 06:45 AM by [Grace Kamau](#) Last updated 5/11/2021 11:34 PM by [Grace Kamau](#)

The Notifications List template displays updates and activity that are important to you. The template is a built-in template and comes with your Communifire site. To see the template in action, make sure the Community Header is set as the active header in Control Panel > System > Page Builder > Header. Then click the bell icon in the header.

Template HTML

Below is the HTML of this template, for your reference.

```
<div class="ax-diamond-hover-box ax-diamond-hover-box-notifications">
  <ul id="ScrollContainer{(WidgetID)}" class="ax-diamond-hover-box-dropdown notifications" data-widgetid="{(WidgetID)}">
    {#each Contents.Notifications}
    <li class="{#if !isRead}unread{/if}" notification-item-{#if (compare ActivityAction 78)} notification-item-award{/if}{#if ContentTypeStub} notification-item-{{ContentTypeStub}}{/if}" data-id="{(ID)}" data-url="{(URL)}">
      <a href="{(URL)}">
        {#if (and (compare FromUserID "!=" 0) (compare FromUserID "!=" -5) )}
        <div class="axero-alerts-avatar">
          
        </div>
        {#if Icon}
          <div class="axero-alerts-avatar">
            <i class="{#if (Notification.Container.DataItem).Icon}" ></i>
          </div>
        {/if}
        {/if}
        <div class="axero-alerts-content">
          {#if (or (compare FromUserID "!=" 0) (and (compare ActivityAction 35) (or FromCRMContactID (compare FromUserID "!=" ToUserID) ) ) )}
          <span class="axero-alerts-content-user">{#if (compare FromUserID "!=" -5)}{({FromUserInfo.DisplayName})}{/if}</span>
          {/if}
          <span class="axero-alerts-content-action">{({ActionText})}</span>{#if Subject}{({../Resources/GlobalColonText})} <span class="axero-alerts-content-subject">{({Subject})}</span>
          {/if}
          <br />
          <span class="axero-mega-time">{({DateCreatedString})}</span>
        </div>
      </a>
    {/li}
  </ul>
  {/each}
  {#unless Contents.LoadOnDropdown}
  {#unless Contents.Notifications}
  <div class="no-entries-message">
    <h2>{({Resources.YouDoNotHaveNotificationsText})}</h2>
    <p>{({Resources.NoContentNotificationDescription})}</p>
  </div>
  {/unless}
</ul>
{#if Contents.LoadOnDropdown}
  {({Placeholders.HTML})}
{/if}
{({ScriptBlock})}
</div>
```

Note: Although this template can be used on any Page Builder page, the template is best used in the [Page Builder: Header](#). Edit the default Community Header to see how to configure a Activity widget when using the Notifications List template.
