Unsplash integration unlocks a library of beautiful, free images for your use throughout your intranet. Search Unsplash for featured images and images for your content.

Note: A site administrator must complete the [Unsplash Integration Administrator Setup](#)

How to Add a Featured Image from Unsplash

1. In the header, click **Create**.
2. Select a content type.
3. In the modal that opens, select a space.
4. Click the placeholder image to add a featured image.
5. Click **Unsplash**.
6. Enter a search keyword.
7. Select options to filter images:
 - Orientation: Landscape, portrait, or square
 - Color: Select a color
 - Sort by: Relevance or newest
8. Click an image to use it as the featured image.

9. Crop the image then click **Save**.
10. Fill out the rest of the content, then click **Save and Publish**.
