Add an image to a Page Builder page using [Manage Space: Dynamic Properties](#) and a [Dynamic Property Widget](#) . The image can be used on multiple Page Builder pages. When you want to update the image, you only need to update the dynamic property in Manage Space, and the image will be updated everywhere it appears.

Add Dynamic Property

1. In the header, click **Spaces**.
2. Select a space.
3. Click **Manage Space > Dynamic Properties**.
4. Click **Add Dynamic Property**.
5. Fill out the following information:
 - **Name:** Enter a name for the dynamic property.
 - **Content:** Add the photo in the editor.
 - **Category:** Select **SpaceDynamicProperties**.
 - Check **Is Active**.
6. Click **Submit**.

Add the Widget to a Page

1. Click **Page Builder**.
2. Add or edit a page.
3. Click the **Layouts** tab and add a layout onto the page.
4. Click the **Widgets** tab.
5. Drag a **Dynamic Property** widget onto the page.
6. On the Dynamic Property widget, click the gear icon > **Edit properties**.
7. Update the widget **Title**.
8. In **Choose a space**, select the space.
9. In **Choose a property**, select the dynamic property you created.
10. Click **Advanced**.
11. Uncheck **Show Header**.
12. Check **Hide Container Border**.
13. Click **Save Widget**.
14. Click **Publish changes**.
15. Click **Go to page**.
