

Zeppelin Header - Content List Compact Template

Version 2

Published 7/8/2021 03:27 PM by [Grace Kamau](#) Last updated 7/8/2021 03:27 PM by [Grace Kamau](#)

The Zeppelin Header - Content List Compact template displays a list of content in a side modal.

The screenshot shows a side modal with a dark blue header bar containing the title "Departments" and a close button (an 'x' in a circle). Below the header is a list of department names, each in a white rounded rectangular button. The list includes:

- Accounting
- Advisory Services
- Advisory Services Administration
- Axero Testing Department
- BackOffice
- Binary Fountain - India
- Binary Fountain Acquisition
- Binary Fountain Acquisition COR
- Binary Fountain Acquisition G&A
- Client Experience
- Client Experience - Admin
- Client Experience - Team 1
- Client Experience - Team 7
- Client Experience - Team 9

The template is a built-in template and comes with your Communifire site. Follow the steps below to create the example widget, which provides quick links to the [People Directory](#) for all the departments in your organization.

1. Go to **Control Panel > System > Page Builder > Header**.
2. Set the **Active Header** to **Global Header with Sub Navigation**.
3. Click **Save**.
4. In the list below, edit the "Global Header with Sub Navigation" header.
5. Click **Widgets**.
6. On the "Sub Navigation" Section widget, click the gear icon > **Expand**.
7. Drag a new **Section** widget into the "Sub Navigation" Section widget.
8. On the **Section** widget you added, click the gear icon > **Edit Properties**.
9. Update the **Title** to *Departments*.
10. Click **Template**.
11. Select **Zeppelin Header - Block Item**.
12. Click **Advanced**.
13. Check **Open content in modal**.
14. Click **Save Widget**.
15. Drag a new **Content List** widget into the "Departments" Section widget you configured.
16. On the **Content List** widget, click the gear icon > **Edit Properties**.
17. Update the **Title** to *Departments*.
18. For **Widget Sub Type**, select **Field Options List**.
19. Click **Template**.
20. Select **Zeppelin Header - Content List Compact**.
21. Click **Advanced**.
22. Check **Load list on opening dropdown (requires template that opens)**.
23. Save the widget and page.

Template HTML
