Discover various methods for sharing your videos on the Aten platform:

On a wall post

1. Copy the video URL on Vimeo, usually under the Share button.
2. Paste the URL in the video overlay box.
3. Paste the URL into a wall post and click the Post button.

As a Video content type

You can share a video on a specific space, upload both the URL and embed code.

1. Copy the video URL on Vimeo, usually under the Share button.
2. Create embed code, which can be done from within a Collector by selecting the video in the top-right open side of the screen, and selecting ‘Share’.
Embedded within other Content types

You can incorporate a video into other Axero content types like Articles or Blogs using within the Video's video URL or an embed code. Both methods are effective ways to enhance your content with multimedia.

1. Find your video link and embed code in its HTML, usually under the Share tab.
2. Create a new piece of content, e.g., by clicking Add Article.
3. Fill in the rest of the required information (Title, Summary, Category, upload a featured image, etc.).
4. Add a Video Tab Code, and Add Insert Media.
