

# REST API: Comment Overview

Version 11

Published 5/5/2015 07:21 AM by [Ravi Rawal](#) Last updated 7/10/2017 05:21 PM by [Grace Kamau](#)

## Comment Properties

A comment is a statement of fact or opinion, that expresses a personal reaction or attitude on the entity object. It includes the Comment ID that is used to make reference to the particular comment throughout the system. Each Comment ID is unique and automatically generated. Comments can be made on Entities such as Articles, Blogs, CMS Pages, Wikis, Files, Videos, Ideas, Photos, Events.
