

REST API: Update User Points

Version 11

Published 1/29/2016 07:40 AM by [Ravi Rawal](#) Last updated 6/7/2019 10:33 AM by [Aparna Anand](#)

Update user points

PUT /api/user/{userid}/points

Used to grant points to users. Points can be positive or negative but must be integers and can not be decimal. Passing positive points add those to the user's existing points; whereas passing negative points subtract those from the user's existing points. Valid for Communifire version 5.2 and above.

Method Details

HTTP Method

PUT

Response Format

JSON

Requires Authentication?

YES

Product Version

5.2 and above

Required Parameters	How to use	Description
